# About Us

## Background

Triumph Bolt Company started out as being a supplier of only bolts and nuts over the years it has grown to a hardware supplier of a variety of industrial products in accordance to the needs of the customers. Our warehouse is situated in the south west of the city of Harare.

## Company overview

Triumph Bolt Company stocks a wide variety of products for the industry. The products currently available are products which have been found to satisfy the needs of the current customers.

New ranges of products are introduced frequently and ranges are expanded to include different products. An attempt is made to provide a unique way of shopping to the hardware and fasteners industry.

Triumph Bolt Company caters for individuals, small, medium and large entities and customers will find all of the fasteners products they need under one roof.

Management believes in a balance and takes all business related functions seriously in order to ensure continued success and sustainability.

Drawing on the industry experience and knowledge of our staff, the company's emphasis on approach is built on client development and attaining optimal service delivery on all levels with maximum participation from its clients.

## Product Overview

A Bolt stockiest and distributor range of bolts, nuts, studs, cap screws and associated products from M6 to M120 diameters, in standard and special formats are manufactured to all local and international specifications; high strength friction grip bolts and nuts are in major demand. Foundation bolts and nuts have recently been added to our stock range.

Special liner bolts and complex hot forged products are manufactured to customer's specific requirements. Materials range from mild steel through the high tensile range to heat resistant and anti-corrosive stainless steels.

The criteria for correct application of the fastener is dependent on the fastener meeting the mechanical requirements specified and requested by you our customer, to this end, we supply the recommended international strength grades, designated by the symbols: 4.6 - 4.8 - 6.8 - 8.8 - 10.9 - 12.9

We also have range of stainless steel and brass fasteners in our product range.

## Vision

"To guarantee reliability and service to all our clients in a non-discriminating manner, and to uphold our company policy, that of service excellence."

## Mission

We are customer service driven and believe in building lasting partnerships with our customers. We maintain the latter by offering world-class quality products that are innovative and easy-to-use.

## Ethics Policy

Triumph Bolt Company is committed to a policy of ethics, integrity and honesty in conducting business. This policy applies equally to directors, employees and representative of the company.

## Our Objectives

- To provide bolts & nuts, all types of industrial fasteners and hardware to clients' specifications.
- To be a customer's complete source of fasteners, bolts and nuts, washers, screws and other high-tech equipment
- To meet whatever the need for mild steel, high tensile, stainless steel, brass, etc.
- To supply customers with a wide range of products and to meet all their product demands for deliveries
- To be price and service competitive in this market of bolts and nuts.
- To maintain and provide service excellence.
